AMENDMENT A

Dear Sir:

In response to the Restriction Requirement mailed September 26, 2002, Applicants provisionally elect, with traverse, to prosecute the invention of Group II, i.e., claims 9-12 and 19-21.

The Restriction Requirement is respectfully traversed. The Official Action has not established a *prima facie* justification for the Restriction Requirement. In the Action, the Examiner makes reference to the alleged unpatentability of claim 9. A requirement for the restriction has nothing to do with unpatentability of claims for any of the inventions being claimed. It is agreed that a rejection of any claim cannot be based on unpatentability implied to such a claim due to unpatentability of another claim. The sole basis for unpatentability resides in the Statutes. The Statutes do not authorize unpatentability to be implied from other claims of the same application. Nothing in the Statutes permits unpatentability of claims to be based on

unpatentability being implied from unpatentable other claims. A restriction requirement has nothing to do with patentability or unpatentability.

Furthermore, the Examiner's reference to PCT Rule 13.1/13.2 is believed to be misplaced. Notwithstanding, so as to be fully responsive, Applicants provisionally elect, with traverse, claim Group II, i.e., claims 9-12 and 19-21, and request that the non-elected claims be maintained in this Application for possible rejoinder and/or for filing of a divisional application.

Examination of the Application on its merits is respectfully requested.

Respectfully submitted,
